HI-STORY

Sola Switzerland AG has its roots as a creator and manufacturer of the finest cutlery in the year 1866. For five generations Sola Switzerland has created cutlery with the purest Swiss touch and know-how. Until today the company emphisis on the quality, professionalism and service spirit of the founders. From a local factory in Central Europe, the company has become during 150 years, the major player on the world market as a reference manufacturer of cutlery and serving tools.

In quantitative terms, Sola Switzerland AG is the largest Swiss cutlery manufacturer and is gaining important market shares across the globe every year. The company is operating from a number of manufacturing sites to fulfil customer demands worldwide. We carry a large and diverse range of cutleries, for which we always maintain a sufficient stock level available to our clients immediately. Further important assets are the strategic market proximity, our inhouse silver plating facilities and modern logistic platforms. Sola's uniqueness stands on ensuring a steady flow of new attractive models every year, with a styling and creativity that enjoy immense popularity on professional, retail and airline channels all around the world. This allows Sola Switzerland AG to remain responsive to our customers' unique requirements and needs and keep a vital step ahead to be able to set new trends and define specifics for all markets.

1866

Sola has developed unique design competence in its well-equipped design studio, where full-size 3D models of cutlery can be designed and fashioned out of steel, before producing prototypes. These are directly sent to the manufacturing sites, which helps the company to maintain a permanent support and reactivity toward its customers. Thanks to the passion of the young management team and the entire workforce, Sola Switzerland AG satisfies the challenges and requirements of modern day-business. As an ISO certified company, Sola Switzerland AG guarantees perfect quality control, from raw material selection and manufacturing processes – such as cutting, rolling, hot or cold forging, silver, plating and hollow handle processing – to the whole packaging process. These strict quality control-procedures at every step of the production guarantees, that the products of our company will reach every end-user in a perfect and reliable condition.
